2. [REDACTED] EO/DDA, was present during the first part of the meeting and reported that his office had received comments from the Trends and Highlights course that the ADMAG presentations had given students a negative feeling about the Group. He advised that all papers submitted by ADMAG to the DDA are read by him and as applicable are considered in his decision making processes. He suggested we present a more positive image by discussing some of our successes, an example being the recently released statement from the DDA regarding afterhours security checks. [REDACTED]
